

2,040 GNS ORGANIC DAM AND DAUGHTER

The dispersal sale of Organic pure-bred Holstein Friesians and Jersey cross-breds for Graham and Rachel Morgan attracted buyers from throughout the West Country, the Midlands and Wales to their farm at Rockfield, Monmouth.

The milking cattle sold to a very good trade peaking at 1,800gns twice. The first to reach this price was a second calver by Welcome Gerwyn. The price was matched for a third calver by Bradash Tournament with her three month old heifer calf making 440gns.

Calved heifers peaked at 1,600gns for a Ballycairn Mascol Mars daughter.

The trade for the milking section was very consistent with many selling from 1,500gns to 1,600gns.

The Autumn calving in-calf heifers met less interest selling to 1,180gns and maidens to 720gns.

Averages:

Fresh heifers £1,547

Milking cows and heifers £1,304

Served heifers £1,005

Maiden heifers £656

Heifer calves £237
